

THIRD PARTY LICENSING

US Signal's third party licensing provides you the ability to use Microsoft licenses with a subscription model for solutions hosted in the US Signal Enterprise Cloud environment. With US Signal being an Authorized Mobility Partner, you can also transfer eligible application licenses to maintain your Microsoft licensing compliance.

AT-A-GLANCE

- + Subscription based access to the Microsoft Operating System and application licensing in US Signal's Enterprise Cloud environments
- + Easily transition Microsoft licensing costs into an operational expense
- + Bring your own Microsoft application licenses into US Signal Enterprise Cloud environments with Microsoft License Mobility
- + Supports both current and legacy versions of Microsoft Operating Systems and applications
- + Deploy pre-licensed server images for new server deployments

US SIGNAL LICENSED SOFTWARE

- + License coverage for solutions running in Resource Pools or Hosted Private Cloud environments
- + Monthly subscription costs to compliantly utilize server operating systems and applications
- + Simple monthly true-up process with US Signal to report license usage
- + Deploy pre-licensed server images when building new Windows servers in the US Signal Enterprise Cloud

AVAILABLE OPERATING SYSTEMS AND SOFTWARE SERVER (OS)

- + Windows Server Standard (2012, 2012 R2, 2016, 2019)

Applications

- + SQL Server Standard, Enterprise, and Web (2012, 2014, 2016, 2017, 2019)
- + Exchange Server Standard & Enterprise (2010, 2013, 2016, 2019)
- + Office Professional & Standard (2010, 2013, 2016, 2019)
- + Windows Server Remote Desktop Services (RDS)

THIRD PARTY LICENSING TECH SHEET

LICENSE MOBILITY

- + Utilize License Mobility through Software Assurance to move Microsoft application licenses to the US Signal Enterprise Cloud
- + Reference the Microsoft Product Terms to determine your eligible products for license mobility
- + Complete the verification process with Microsoft or your Preferred Reseller
- + Licenses without Software Assurance Mobility Rights can be used to cover solutions running on a dedicated host solution

BYOL Licensing Scenarios

	With Software Assurance		Without Software Assurance	
Microsoft Software	Resource Pools	Hosted Private Cloud	Resource Pools	Hosted Private Cloud
Windows Server	No	Yes	No	Yes
SQL Server	License Mobility	Yes	No	Yes
Exchange Server	License Mobility	Yes	No	Yes
Remote Desktop Services	License Mobility	Yes	No	Yes
