

US DATA PRIVACY LAW REFERENCE GUIDE

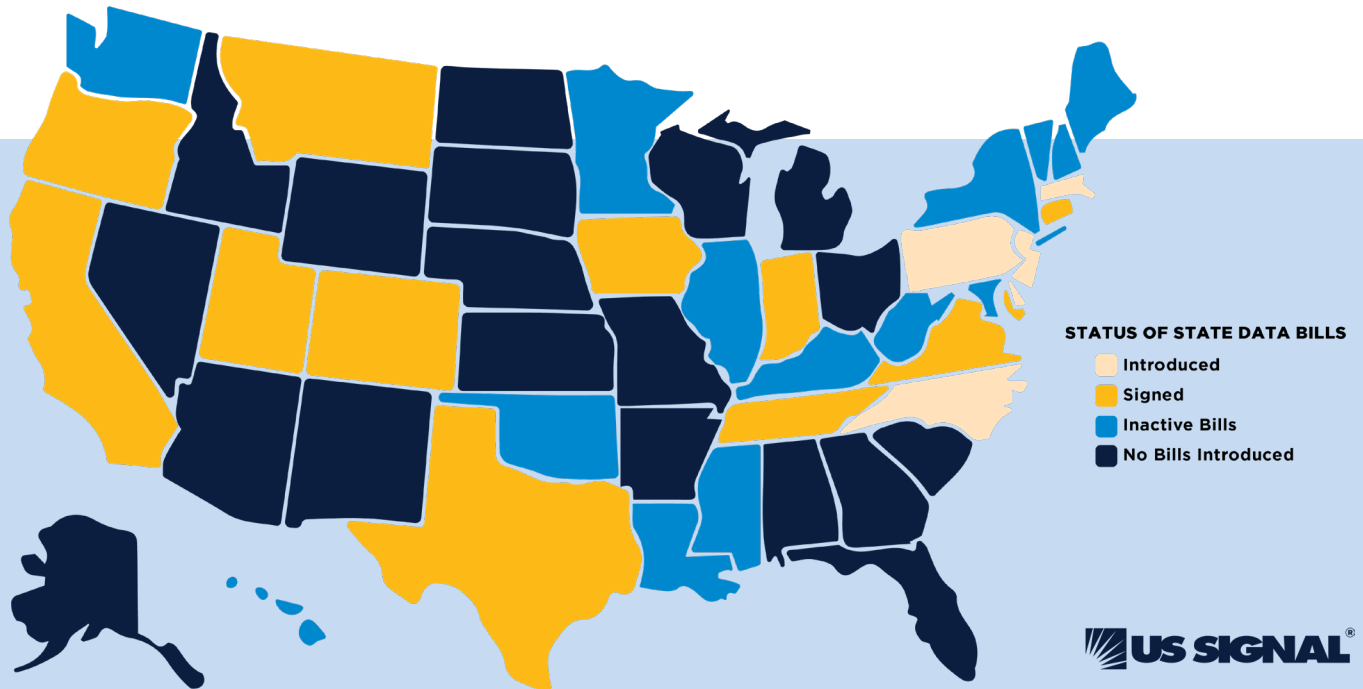

2023 EDITION

THE STATE OF DATA PRIVACY

The state of data privacy in the US — and around the world — seems to always be in transition. This guide provides links to the laws that have or will go into effect in 2023, as well as to those that are set to go into effect over the next two years. *Note: information is subject to change.*

Data privacy legislation can affect businesses as well as individuals, so it's imperative to understand who and what they cover. The International Association of Privacy Professionals provides a useful tool to help you stay up to date on the status of various privacy laws [here](#).
